

International Earth Day

Liliana Mularska 5e

Let's take care of the Earth

Our mother Earth is very important for us because it is our planet, it is our home. We should protect it.

Save the Earth!!!!

We mustn't destroy our home and we must prevent the environmental pollution. It gives us drinkable water and the required oxygen.

How to protect...

- We mustn't drop any litter in public places in the town and in the forest either.
- We have to recycle glass and metal packages and the others made of different materials.

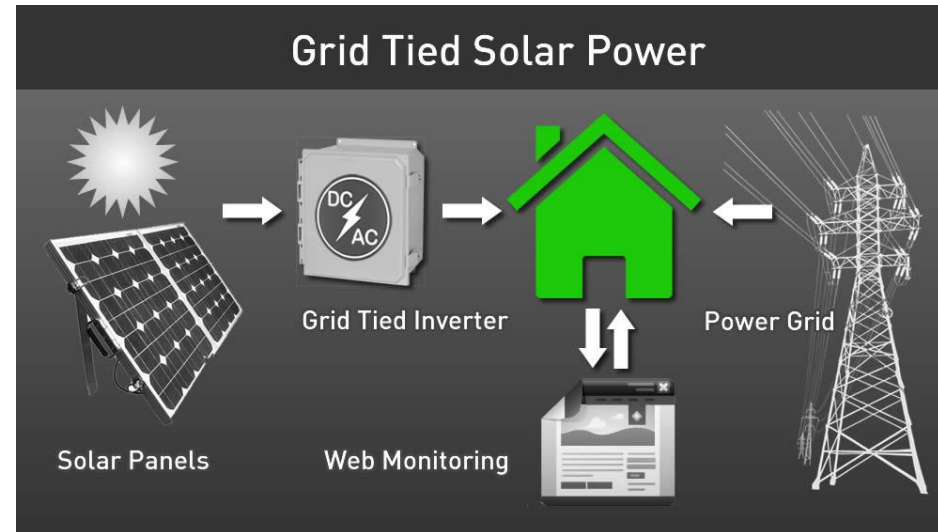

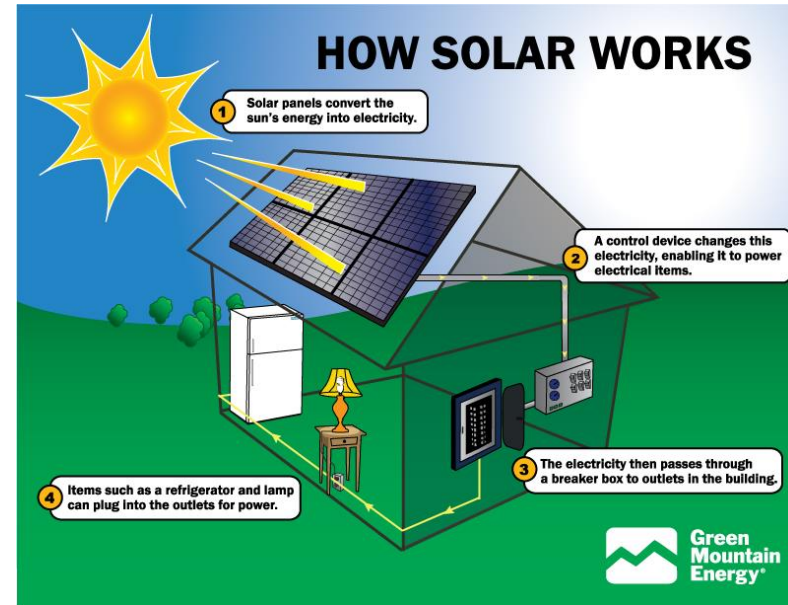

... & save our Earth?

- We mustn't use plastic bags and bottles because they are not recyclable.
- We must reuse recyclable materials and produce the solar energy.

Recycle materials and produce solar energy.

We love you...

You give us life and health and that is why we love you so much 😊!

We want to thank you for your great care very much!!!

...Mother Earth☺

Let's stay with you as long as it is possible and even one day longer...☺!

We promise you our care, protection and love and many, many trees and bushes in the forests....
